

SYMPHONY CS-SYM-2B

Hard Water Scale, Corrosion, Chloramine Tastes & Odors, and Cysts. Filters down to 0.2 micron

- **Active Armour** protects from hard water scale and corrosion
- **High Capacity 10 micron filter** clarifies water and protects carbon filters from clogging for up to 150,000 gallons
- **High Capacity Carbon Block** removes Chloramine, Organics, Herbicides, Pesticides, and Cysts from the water, improving tastes and odors while making your water safer. Each cartridge is rated up to 60,000 gallons for a total system capacity of 240,000 gallons
- **No electricity or drainage required**

System Specifications

Dimensions	30"x7"x26"
Operating Pressure	30-80 psi
Water Temperature	40°-80° F
Connection Size	1" MNPT
Peak Flow Rate	14 gpm
Stage 1	1x FLT-4B16P
Stage 2	4x FLT-4B33X

NSF 53 – Cyst Reduction
NSF 42 – Chlorine Taste and Odor Reduction
